This week in brief

Poland drew the week's operations: prosecutors charged two Ukrainians with painting "Slava UPA" on Poznan monuments for Russian intelligence, and after Russian missiles came down in eastern Poland officials blamed "Russian bots and trolls" for a wave of fakes. The EU sanctioned the Social Design Agency, Germany's BfV found Storm-1516 and Matryoshka at this year's state elections, and Matryoshka worked Spain's coming election and Pope Leo XIV into its fakes.

[+] Poland's National Prosecutor's Office charged two Ukrainians over "Slava UPA" slogans painted on three Poznan monuments, one of them allegedly acting for Russian intelligence for 500 dollars to incite hatred between Poles and Ukrainians; the Russian embassy reposted Maria Zakharova asking "What hybrid war?!", without mentioning the charges.

[+] After Russian missiles came down in eastern Poland on 20 November, the Centre for Combating Disinformation listed "Ukrainian provocation" and other returning narratives, and after the Kaliningrad alarm it counted numerous Russian fakes that Poland and NATO were attacking Russia, which it says reached over 19 million.

[+] Rzeczpospolita reported, citing unnamed officials, that Russian services planned a provocation with many victims at the Kaliningrad border to be blamed on Ukraine, and Poland's military counter-intelligence chief said Polish and allied sources had confirmed such information, though it is sometimes hard to assess.

[+] The Council of the EU sanctioned the Social Design Agency, which it says runs information manipulation projects "funded, directed and supervised by the Russian Presidential Administration", with 24 of its staff and six commentators, among them RT's Chay Bowes.

[+] Germany's BfV found Russian campaigns against parties and candidates in the 2026 state elections, among them Storm-1516 and Matryoshka, whose videos reached no large organic audience.

[+] NewsGuard says the leaked files show China Media Group using John Mark Dougan from February to build the Czech site GNews.cz, "apparently paid by the Chinese government".

[+] Russia answered the fall of a span of the Kerch bridge with what MediaSapiens traced as a "British terrorist attack" line and SPRAVDI as 1,461 "terrorist attack" publications in a day.

[+] Matryoshka aimed fakes, mostly under French media brands, at Spain's 29 November election and, per NewsGuard, placed Pope Leo XIV at the centre of Europe's unrest in AFP- and Corriere della Sera-branded videos.

[-] Reading the DISARM lines: under every incident, a **disarm** line lists the DISARM Red v1.6.1 techniques evidenced in the sources, grouped by tactic in kill-chain order (plan → prepare → execute → assess). Every ID (e.g. T0085.001) links to its DISARM definition. ~ marks a label inferred rather than stated in a source. Technique names are in the appendix. Responses, context items and overt state actions are not labeled. Each incident has an ID (e.g. W47-007) used in the pattern summary.

Czechia

No Czech authority attributed a new campaign to a foreign state this week. The main exposure was again the Czech side of the John Mark Dougan leak: NewsGuard says China Media Group started using Dougan in February to build GNews.cz, "apparently paid by the Chinese government", and Seznam Zprávy says the leaked messages show Denisa Petrilaková paying his server bills at a Slovak host to get round EU sanctions. In the open, the Chinese embassy held a round table on the Communist Party's "economic miracle" with China Media Group and iportaL24, its new ambassador placed an article on how the party governs, and Maria Zakharova called the foreign minister's apology over "manly" Russian hockey players "racism and neo-Nazism".

DATE	WHAT HAPPENED	ACTOR AND ATTRIBUTION	SOURCE
20 Nov W47-001	Maria Zakharova wrote that Foreign Minister Petr Macinka, who had called Russian junior women hockey players "manly", had decided to correct his "bias against people on gender grounds" with "outright racism and neo-Nazism" by explaining that he meant only Russian players, and called resistance to Russia's return to international hockey "cowardice". The Czech foreign ministry's spokesman replied that Zakharova had "clearly adopted the postulates of the European progressive left" and could take gender studies courses in the West once the war is over, ČTK reported. DATE	WHAT HAPPENED	ACTOR AND ATTRIBUTION	SOURCE
18-20 Nov W47-003	On 18 November the Chinese embassy held a round table on the "economic miracle under the leadership of the Communist Party of China" with China Media Group, the news site iportaL24.cz and the Czech-Chinese Chamber, attended, it says, by former prime minister Jiří Paroubek, the chamber's chairman Vojtěch Filip, MP Tomáš Doležal and KSČM vice-chair Milan Krajča. China's new ambassador Zhou Qian published an article in Naše pravda on what the party's fifth plenum shows about how the Communist Party of China governs, which the embassy says also ran in Parlamentní listy and iportaL24, offering to "deepen the exchange of experience in running political parties and governing the state" with the Czech side. In the embassy's readout of his first call on Macinka on 19 November, the Czech government "firmly holds to the one-China policy". **disarm** not labeled · overt state action	The Chinese embassy in Prague and China Media Group, openly; Macinka's words as the embassy renders them **[official]**	cz.china-embassy.gov.cn; naspravda.cz; cz.china-embassy.gov.cn; cz.china-embassy.gov.cn
19-20 Nov W47-004	The Russian embassy in Prague relayed on Telegram, in Russian, Vladimir Putin's press conference after the summit with the US and Chinese presidents in Shenzhen, including his claims that "we did not start the war, and in general we never started any war" and that it all began "with a coup d'etat in Kyiv". **disarm** not labeled · overt state action	The Russian embassy in Prague, openly **[official]**	Telegram
19 Nov W47-005	NewsGuard says the files leaked from John Mark Dougan's devices show that China Media Group, China's state broadcaster, started using him in February to build GNews.cz, a site in eight languages that calls itself "Czech owned" and "without foreign investment or influence", and that he was "apparently paid by the Chinese government". Denisa Petrilaková told him that for "the highest protection in China" he would have to provide information such as "about the US shipping weapons to Taiwan", to which he answered "Tell them I want to work for them", and a screenshot she passed him counted 1.2 million visitors on one day, 1.1 million of them bots. **disarm** TA02 ~T0136.004 · TA06 T0085.001 T0085.003 T0085.008 · TA15 T0091.001 T0093.001 · TA16 T0098 · TA05 T0101 · TA07 T0152.004 T0154.001 · TA11 T0130.001 · TA12 T0134.001	China Media Group, per NewsGuard's reading of the leaked files. Slovakia

No Slovak authority attributed an information operation to a foreign state this week; the nearest was the announcement, with Eurojust, that Ukraine has charged the man suspected of sending bomb threats to Slovak and Czech schools, listed under Czechia. The main exposures were Demagog.sk's: a doctored photo of PS leader Michal Šimečka giving a "Nazi salute" at the 17 November rally, which a Czech MP shared before he retracted, and the claim that a 14-year-old was freed from a Ukrainian "torture chamber", which spread through a video that Lubos Blaha shared and that drew more than 600,000 views. In the open, RIA Novosti ran six comments in four days that it says Deputy Speaker Tibor Gašpar gave it, and the Russian embassy publicised a screening of a film on a "war against Orthodoxy" in Ukraine at its cultural centre in Bratislava.

DATE	WHAT HAPPENED	ACTOR AND ATTRIBUTION	SOURCE
18-22 Nov W47-014	RIA Novosti ran six comments in four days that it says Deputy Speaker Tibor Gašpar (Smer) gave it: that refusing military aid to Kyiv is "correct", that Slovakia must "do everything possible" to have its position respected on the EU's ban on Russian gas, that sanctions "should not be an end in themselves", that the EU should seek diplomacy, that giving up Russian gas without an affordable alternative can raise costs, and that he supports keeping contacts between Slovak MPs and the State Duma, since the revived intergovernmental commission "showed that communication between Slovakia and Russia is possible". RIA also quoted Republika's MEP Milan Uhrík saying that views are growing stronger in Europe that the absence of diplomacy "drags out the conflict", and TASS carried Robert Fico calling the European Council the "European war cabinet". **disarm** not labeled · overt state action	RIA Novosti and TASS, Russian state media, in the open. Poland

Prosecutors attributed one operation to Russia: they charged two Ukrainians in Poznan over "Slava UPA" slogans on three monuments, one of whom allegedly acted for Russian intelligence, for 500 dollars, to stir hatred between Poles and Ukrainians. After Russian missiles came down in the Lublin and Subcarpathian regions on 20 November and sirens sounded in Kaliningrad a day later, the Centre for Combating Disinformation logged the familiar "Ukrainian provocation" lines and then numerous Russian claims that Poland and NATO were attacking Russia, which it says reached over 19 million, NASK reported about 40 AI fakes to platforms, and the digital minister blamed "Russian bots and trolls". The main exposures were Rzeczpospolita's report of a planned Russian false-flag attack at the Kaliningrad border meant to be blamed on Ukraine, information the military counter-intelligence chief said Polish and allied sources had confirmed while calling it sometimes hard to assess, INFO OPS Polska's maps of the Russian channels that mocked it, and Demagog's find of TikTok accounts that resemble Russia's Operation Undercut.

19-20 Nov W47-033	The National Prosecutor's Office charged two Ukrainians detained in Poznan over the "Slava UPA" slogans painted on three monuments in early November: one of them, acting for Russian intelligence for 500 dollars, allegedly persuaded the other to "commit an act of sabotage" aimed at inciting hatred between Poles and Ukrainians, Notes from Poland reported. Rzeczpospolita says it has not been established whether the graffiti in Warsaw, Gdynia and Gdansk were part of one operation. On 20 November the Russian embassy posted Maria Zakharova asking "What hybrid war?!" and saying "it is your people" who march with torches and salute portraits of Bandera and Shukhevych, without mentioning the charges, after she had blamed the graffiti on "neo-Banderism" on 17 November.	Russian intelligence, per the National Prosecutor's Office. These are charges, and Russia denies a role **[official]**	tvn24.pl; Notes from Poland; rp.pl; Telegram; Telegram

Germany and Austria

No German or Austrian authority attributed a new campaign to a foreign state this week, but the BfV published a background paper finding that Russian influence campaigns around the 2026 state elections were aimed mainly at parties and candidates, naming Storm-1516 and Matryoshka, whose videos failed to reach a large organic audience, and Interior Minister Alexander Dobrindt said Germany has not attributed the supermarket cooling hacks because more than one group seems to be behind them. The main exposures were CORRECTIV's finding that the web address of the "school strike against conscription" campaign was registered by the youth wing of the German Communist Party, which it says serves Russian interests, and two Storm-1516 fakes The Gnida Project flagged, a dpa-branded video claiming Angela Merkel is leaving the CDU and a fake investigation under the name of the Berlin NGO ECCHR. In Austria, Russia's embassy and ambassador rejected blame for the damage a Russian strike did to Austria's embassy in Kyiv and put the responsibility for any consequences on Vienna.

DATE	WHAT HAPPENED	ACTOR AND ATTRIBUTION	SOURCE
20-21 Nov W47-040	Austria: After a Russian strike on Kyiv on 19 November damaged Austria's embassy, the Russian embassy in Vienna wrote on X that responsibility for any negative consequences lies "entirely with the Austrian side", given earlier warnings about staying in Ukraine, and Austria's foreign ministry called strikes that endanger diplomatic missions "completely unacceptable", ORF reports. Summoned to the ministry, the Russian ambassador told RIA Novosti he had "firmly rejected the unjustified accusations" and that civilian infrastructure "has never been a target of the Russian armed forces", Heute reports. The video borrows details from a real Danish scandal, in which Estonia prepaid Danish money meant for artillery shells for Ukraine to the Italian firm Datasel, which delivered none, and StopFake says it seems aimed at undermining trust in the support for Ukraine of the politicians it names. **disarm** TA02 T0135.001 · TA06 T0087 · TA07 T0151.008 · TA08 T0042 (actor unknown)	None named, per StopFake **[unattributed]**	StopFake

Ukraine

Ukrainian bodies attributed several operations to Russia this week: the CCD named the Foundation to Battle Injustice, set up by Yevgeny Prigozhin, as the first source of a fake video tying the Binance theft to Zelensky's office and said a staged video of a soldier's "execution" bears the marks of Russian special services, and HUR said Russia set up fake copies of its website to discredit it and a fake HUR Telegram bot to find people who want to fight the regime. The main exposure was Russia's response to the fall of a span of the Kerch bridge on 17 November, which SPRAVDI, the Institute of Mass Information and MediaSapiens traced from playing down the damage to a "British terrorist attack" and calls for revenge, while SPRAVDI counted the Pravda network and RT carrying up to a quarter of the day's FIMI output it tracks on a "new Yalta" around the Shenzhen summit.

DATE	WHAT HAPPENED	ACTOR AND ATTRIBUTION	SOURCE
21-22 Nov W47-054	The CCD rebutted a fake video claiming that 1.6 billion dollars stolen from the Binance exchange were traced to 43 Ukrainian companies, 27 of them linked to the Office of the President: it says the authors took the real cyberattack on Binance at the end of October and invented the money trail. It names as the first source the "Foundation to Battle Injustice", which it calls a Russian structure set up by Wagner founder Yevgeny Prigozhin that "systematically fabricates fakes for a Western audience". The Gnida Project had flagged the campaign on 21 November as Storm-1516 and R-FBI. Wider Europe and beyond

The Council of the EU sanctioned the Social Design Agency, which it says runs information manipulation "funded, directed and supervised by the Russian Presidential Administration", together with 24 of its staff and six commentators, among them RT's Chay Bowes; Denmark's PET said Russian intelligence planned a foiled plot to kill a Ukrainian-American rapper near Copenhagen; and Estonia's government decided to close its road border with Russia, citing recruitment, influence operations and sabotage. The main exposures were Matryoshka fakes under Western media brands aimed at Spain's 29 November election, the Tour de France and Pope Leo XIV, the Pravda network copying Spanish far-right claims of electoral fraud, Vietnam-run Facebook page farms turning to the same vote, and phishing that Google ties to the Russian group COLD RELIC against Hungarian critics of the Kremlin. No authority has named a sender for the more than 8,000 hoax bomb threats Reuters counted across Europe in a month.

Actors and techniques

Russian operations dominated again, and Russian services were named behind efforts aimed at Poles and Ukrainians, from the Poznan graffiti, meant to set the two against each other, to a provocation planned at the Kaliningrad border to be blamed on Ukraine. China appeared through the Czech site that NewsGuard says China Media Group built with John Mark Dougan, and pro-Iran sources through an AI image that NewsGuard found spread by an IRGC-affiliated site.

OPERATION OR ACTOR	ORIGIN	WHAT IT DID THIS WEEK	WHERE SEEN
Russian intelligence services and the GRU	Russia per Poland's National Prosecutor's Office, Rzeczpospolita's unnamed sources, Denmark's PET and Estonia's defence minister	The "Slava UPA" graffiti in Poznan, which one of two charged Ukrainians allegedly had painted while acting for Russian intelligence for 500 dollars, per the charges; a planned provocation at the Kaliningrad border to be blamed on Ukraine, per Rzeczpospolita; a planned killing of a Ukrainian-American rapper near Copenhagen, per PET; and the GRU's failed arson at Threod Systems, which may have served an information operation, per Estonia's defence minister.	Poland, Denmark and Estonia
Matryoshka (Operation Overload)	Russia per NewsGuard, Newtral, Detector Media and the BfV	Videos under AFP and Corriere della Sera brands placing Pope Leo XIV at the centre of Europe's unrest, per NewsGuard; under mostly French brands and sometimes the French government's against Spain's election, per Newtral; and under eight brands on the Tour de France, per Detector Media; the BfV says its videos imitating German media reached no large organic audience.	Spain, France and Germany (X, Tumblr)
Storm-1516	Russia per the German federal government, as the BfV recalls	Fakes The Gnida Project flagged under dpa's brand on Angela Merkel, under the Berlin NGO ECCHR's name on Ukraine, on NABU "suitcases" in the Zelenskys' cars, which reached Bulgaria, and, with R-FBI, on a Binance money trail to Zelensky's office, which the CCD traces to the Foundation to Battle Injustice; and fakes including a Euronews-branded one about Latvia, per Demagog and IMM, mainly on behavioural and narrative analysis. The EU listed RT's Chay Bowes partly for amplifying it, per The Record.	Germany, Ukraine, Poland and Bulgaria (X, Facebook)
Social Design Agency (Doppelganger)	Russia, running information manipulation "funded, directed and supervised by the Russian Presidential Administration" per the Council of the EU	Sanctioned with 24 of its staff over its "European" and "Ukrainian counter-campaigns"; the BfV says Doppelganger now regularly reaches only a small audience.	Germany and France

OPERATION OR ACTOR	ORIGIN	WHAT IT DID THIS WEEK	WHERE SEEN
Pravda network (Portal Kombat)	Russia per SPRAVDI and Newtral	A "new Yalta" around the Shenzhen summit, one TASS report on Europe's exclusion copied to 60 sites and, with RT, France's "Volia" mission as France at war, per SPRAVDI; Spanish far-right "vote-rigging" posts copied word for word and Spain accused of "glorifying Nazism", per Newtral; with RT and Sputnik, Poland's PURL position in 412 publications a day, per the CCD; the NABU "suitcases" fake carried on to Bulgaria, per Factcheck.bg; yet only 1% of the hostile citations AI assistants gave on Latvia's election, per NATO StratCom COE.	Ukraine, Spain, Poland, Bulgaria and Latvia
Russian foreign ministry and embassies	Russia, in the open	Zakharova on the Czech foreign minister's "racism and neo-Nazism", on the "Slava UPA" graffiti in Poland ("What hybrid war?!"), on Estonia's border closure as "Russophobia" and on Moldova; the SVR's claim, relayed by the ministry, that the BND and DGSE work to split Serbia's student movement; a warning to Finland over its ban on Russian athletes; embassies relaying Putin and Lavrov in Czechia and Slovakia and their own ambassador in Germany, protesting monuments in Poland, telling Austria that responsibility for any consequences of the strike that damaged its Kyiv embassy lies "entirely with the Austrian side", calling Denmark's findings a "propagandistic show" and Romania's Turla attribution a "fabrication"; and the chargé d'affaires in Estonia claiming it destroyed "at least 140" Soviet memorials.	Czechia, Slovakia, Poland, Germany, Austria, Estonia, Finland, Denmark, Romania, Moldova and Serbia (Telegram, X)
Russian state media and TV	Russia, in the open	The six comments RIA Novosti says Slovakia's deputy speaker gave it, its "without evidence" line on the missiles in Poland and its Narva "collapse", per The Insider; Russia-24's recut of a Dutch journalist's report on the Kerch bridge, per the journalist; and guests on Russian TV, Vladimir Solovyov's show among them, urging strikes on Ukraine's grid and bridges, per Mozhem Obyasnit.	Slovakia, Poland, Estonia and Ukraine
COLD RELIC	Russia, tied to the FSB's Center 18 by several Western governments, as VSquare reports	Phishing in the name of a former Hungarian foreign minister against Kremlin critics, which Google links to the group.	Hungary (email)
China Media Group and the Chinese embassy in Prague	China	Used Dougan to build GNews.cz, per NewsGuard; co-organised a round table on the Communist Party's "economic miracle" with a Czech news site, and placed the ambassador's article on how the party governs, in the open.	Czechia

OPERATION OR ACTOR	ORIGIN	WHAT IT DID THIS WEEK	WHERE SEEN
Influence for hire	No state named	An "influence-as-a-service" platform built on Gemini and other tools and a contractor's platform for over 100,000 accounts, per Google's GTIG, and Vietnam-run Facebook page farms turning to Spain's election, for ad money per Maldita.es's experts and with "a possible economic motivation" per an analyst quoted by Newtral.	Europe and the Middle East (Facebook)
Pro-Iran sources	Among them Javan Online, which NewsGuard calls IRGC-affiliated	An AI-made satellite image of a "destroyed" US radar in Bahrain, per NewsGuard.	Iran (news sites)

New research and reports

Russia's reaction to the Kerch bridge strike and the run-up to Spain's 29 November election drove the week's research, with two Ukrainian studies of the first and several Spanish investigations of the second, while NATO StratCom COE found overt Russian state media, not the covert Pravda network, reaching Latvia's Russian-speaking voters through AI assistants. No platform published a takedown report; the nearest, Google's AI threat report, describes an influence-for-hire platform built to automate whole campaigns with LLMs.

DATE	PUBLISHER	TITLE OR TOPIC	WHY IT MATTERS
22 Nov	The Insider	"RIA Novosti fake claims closing the border with Russia means the 'collapse' of Estonia"	Sets what Narva's council chairman actually wrote, a call for state support for the region, against RIA Novosti's headline that the town's authorities expect "collapse".
22 Nov	INFO OPS Polska	"From an incident in the Baltic to the threat of confrontation with NATO. Russian propaganda around the events in Kaliningrad Oblast"	Shows Russian commentators casting Poland and Lithuania as parties to the drone attack on the Russian cargo ship Sparta II, while finding insufficient grounds to call it all one planned campaign.
21 Nov	Newtral	"'Voting is pointless' and Ukraine is to blame: the interference of the Russian operation Matryoshka ahead of 29N"	Reviews 38 Matryoshka fakes aimed at Spain's election, some of which cast France and Germany as the ones interfering in it.
21 Nov	MediaSapiens	"'British terrorist attack': the reaction of Russian propaganda to the Ukrainian strike on the Kerch bridge"	Reads 2,699 Telegram posts from 17-18 November, in which one popular line was that Ukraine could not have struck the bridge alone and Britain stood behind it.
20 Nov	BfV	"Information manipulation: how foreign powers deliberately try to influence opinion"	Germany's domestic intelligence service finds that Russian campaigns at this year's state elections, Storm-1516 and Matryoshka among them, mostly targeted parties and candidates, and that the Matryoshka videos failed to reach a large organic audience.
20 Nov	CORRECTIV	"For Russia, against German conscription"	Traces the "school strike against conscription", which calls itself a self-organised pupils' movement, to the youth wing of the German Communist Party, while noting that no money flows are known.

DATE	PUBLISHER	TITLE OR TOPIC	WHY IT MATTERS
20 Nov	EUvsDisinfo	"'Russophobia': a narrative for every occasion"	Shows how one label lets Moscow wave away evidence of interference, as over Estonia's border closure, and cast even Poland's Centre for Eastern Studies as a state-funded factory of Russophobia.
20 Nov	Detector Media	"In others' voices: how the state, business and anonymous channels shape the image of the veteran on social media"	Among 157,282 Ukrainian-language posts about veterans it finds 38 messages repeated word for word over 100 times, 12 of them stories of recruitment-office abuse, spreading at a pace that suggests possible artificial boosting.
20 Nov	Institute of Mass Information	"The Kerch bridge. How Russian propaganda hides the destruction but calls for revenge"	Shows TASS and Komsomolskaya Pravda playing down the damage while pro-war Telegram channels call for new strikes in revenge.
20 Nov	Texty	"'Capitulation is life'. Monitoring of Russian disinformation for 9-15 November 2026"	Finds 30% of the YouTube comments it tracks destructive, almost all pushing capitulation, and one in four of those left by a bot.
20 Nov	Newtral	"From Arganda del Rey to the Russian Pravda network: how a local news story is used to plant the 'vote-rigging' narrative"	Follows an August story about irregular residence registrations from far-right and conspiracist X and Telegram accounts into two Pravda network articles presenting it as a sign of electoral fraud.
19 Nov	NewsGuard	"Anatomy of a Disinfo Op: How A Disgruntled Russian Propagandist Turned to China"	Reads the files leaked from John Mark Dougan's computer as showing China Media Group using him from February 2026 to build the Czech site GNews.cz, and puts figures on the fees discussed.
19 Nov	NewsGuard	"Russian disinfo campaign drags the Pope into European unrest; Kremlin propagandist Dougan moonlights for China"	Documents three Matryoshka fakes under AFP and Corriere della Sera branding that put Pope Leo XIV at the centre of Europe's protests, and RT's Chay Bowes sharing the AI image of the Krakow shooting suspect.
19 Nov	VSquare	"FSB Hackers Impersonated Hungary's Ex-Foreign Minister to Target Kremlin Critics"	Its author, himself a target, reports that Google linked phishing in the name of a former Hungarian foreign minister to COLD RELIC, a group several Western governments tie to the FSB.
19 Nov	Seznam Zprávy	"'Paid.' A Czech woman secretly helped Putin's disinformer"	Reads the leaked messages as showing Denisa Petrilaková paying the Slovak host of Dougan's servers despite EU sanctions on him.
19 Nov	Demagog	"Suspicious accounts return to TikTok. Another instalment of a Russian influence operation"	Finds a new set of TikTok accounts with patterned names and generated profile pictures that it says resemble Russia's Operation Undercut.
19 Nov	INFO OPS Polska	"'A few people with flashlights'. How Russian propaganda undermines warnings of sabotage on the border with Kaliningrad Oblast"	Warns that Russian channels' ridicule of Poland's border alarm could make it harder to show who was behind a future false-flag attack.
19 Nov	EDMO	"How disinformation exploited the Kraków tragedy to attack the usual targets, and how Elon Musk made things worse"	Weighs who gained from the false claims about the Krakow shooter, Russia among them, and records Polish authorities' complaint that X, unlike Meta and TikTok, answered none of their reports.

DATE	PUBLISHER	TITLE OR TOPIC	WHY IT MATTERS
19 Nov	Maldita.es	"The phenomenon of Vietnamese Facebook page farms: the goal is to make money, but there could be interference in an election context, according to experts"	Analyses 30 Facebook pages, mostly located in Vietnam, that post AI-made stories, now about Spain's election too, to drive traffic to ad-funded sites.
19 Nov	Detector Media	"Bags 'with the blood of Femen activists' and 'Ukrainian scammers': how 'Matryoshka' is trying to disrupt the 'Tour de France 2027'"	Finds Matryoshka videos under Euronews, CNews and France 24 branding posted from X accounts registered in 2012 that had been silent for years, probably hacked or taken over.
19 Nov	Propastop	"Border closure plan set off a barrage of narratives"	Shows Russian media presenting Estonia's border closure as Russophobia and economic self-harm, drawing on the words of Estonian politicians, local residents and Seto representatives.
17 Nov	NATO StratCom COE	"LLM grooming, measured: A NATO StratCom COE investigation into what AI assistants tell Latvia's Russian-speaking voters"	Across 18,263 answers, AI assistants cited hostile-state sources in 34.6% of Russian-language answers against 4.0% in Latvian, with overt Russian state media and institutions far ahead of the covert Pravda network.
17 Nov	Google Threat Intelligence Group	"COLD RELIC: A Case Study in Impersonation and Compromise"	Shows how a group the US Justice Department places in the FSB uses what it steals from one victim to impersonate contacts when approaching the next.
17 Nov	Demagog and IMM	"Leszek Miller, Piotr Panasiuk and anonymous accounts. Who repeats Russian disinformation? A report by Demagog and IMM"	Counts a fourfold rise in weekly negative posts about "Banderism" by mid-June and names ten profiles it says spread Russian disinformation, from a former prime minister to International Radio Belarus.
17 Nov	Reuters	"'Death is near': Inside the hoax bomb threats that rattled Europe's schools and airports"	Tallies more than 8,000 bomb hoaxes across Europe in a month, which several officials and experts suspect were connected, while France's interior minister sees "a possibility of foreign interference".
17 Nov	Čeští elfové	"Monitoring of chain emails - October 2026"	Finds "Russia" the entity most supported in the 137 chain emails it collected in October, and Petr Pavel, Ukraine and Petr Fiala the most attacked.
16 Nov	Google Threat Intelligence Group	"GTIG AI Threat Tracker: Agentic Threat Activity Crosses a Significant Threshold"	Assesses with high confidence that influence operators, state groups attributed to Russia, the PRC and Iran among them, have moved from experimenting with LLMs to fully integrating them, and describes an influence-for-hire platform aimed mainly at Europe and the Middle East.
16 Nov	Centre for Countering Disinformation	"Analytical report 'Models of Russian information pressure: from Ukraine to Europe'"	Finds the three lines Russian sources used against Ukraine before the 2022 invasion, defence as a threat, oppressed Russian speakers and persecuted Orthodox believers, recurring in 2026 coverage of Norway, Finland, the Baltic states and Poland, though mostly in response to specific events rather than in one build-up.

DATE	PUBLISHER	TITLE OR TOPIC	WHY IT MATTERS
16 Nov	Promo-LEX	"Promo-LEX OM: Summary statement of findings and conclusions on the regional elections in ATU Gagauzia of 15 November 2026"	Finds networks of anonymous accounts promoting or denigrating candidates and undeclared sponsored advertising, some of it paid with foreign funds, in Gagauzia's vote.
16 Nov	Newtral	"Pro-Russian channels single out Spain ahead of 29N for voting against a resolution on Nazism that the EU has rejected since 2022"	Counts about 31 pro-Russian messages naming Spain over this year's UN vote, against 10 in 2024 and 2025, in the run-up to its election.
16 Nov	Propastop	"Memorials once again a Russian propaganda weapon"	Shows seven major Russian outlets carrying a Russian diplomat's claim that Estonia has destroyed at least 140 Soviet war memorials within 30 minutes of the first report.

Outlook

These are this digest's own judgments from its records, not forecasts from a source: each says what follows if a pattern of the last weeks continues, and a later issue checks it.

[+] **2026-11-22-01, Storm-1516**, medium confidence, check by 20 Dec - If the pattern holds, expect more fake videos under the brands of real news outlets and organisations, posted on X and aimed mostly at German and French audiences, from Storm-1516, which the French, British and German governments attribute to Russia outright. Most of the basis rests on one tracker's attribution. Basis: W47-049, W47-043, W46-098, W45-077 and W42-031.

[+] **2026-11-22-02, Pravda/Portal Kombat**, medium confidence, check by 20 Dec - If the pattern holds, expect major diplomatic events and breaking news to be turned within a day into hundreds of republications of Russian state media and officials, in several languages, by the Pravda network, which the Council of the EU attributes to Russia outright. Most of the basis rests on Ukrainian state bodies, a party to the war. Basis: W47-070, W46-070, W46-072, W46-057 and W44-069.

[+] **2026-11-22-03, Russian MFA**, medium confidence, check by 20 Dec - If the pattern holds, expect the Russian foreign ministry, which speaks in Russia's own name, to keep publishing through its embassies' Telegram channels, in the languages of their host countries, its own and its officials' claims that deny Russian abuses in the war or blame Ukraine for abuses and suffering. Basis: W47-052, W46-022, W45-008, W44-006 and W44-022.

[+] **2026-11-22-04, Matryoshka/Overload**, medium confidence, check by 20 Dec - If the pattern holds, expect more fake videos under the brands of Western news outlets, pegged to breaking events and to Spain's 29 November election, on X and Tumblr, from Matryoshka, which Germany's BfV lists among Russia's influence campaigns. Basis: W47-081, W47-094, W46-034, W46-119 and W45-068.

What to watch next week

NATO's meeting on the missiles that hit Poland opens the week, with two votes on 29 November, in Spain and in Gagauzia, at its end.

[+] 23 Nov: The North Atlantic Council meets in Brussels on the violation of Polish airspace by Russian missiles, per Defence24.

[+] 23 Nov: MEP Markéta Gregorová's deadline for a written answer from China's National People's Congress on her detention in Beijing, per the Pirate Party.

[+] 24 Nov: Slovakia's parliament holds the special session on the opposition's motion to dismiss Foreign Minister Juraj Blanár, which cites, among other things, his contacts with Russia, per TASR.

[+] 29 Nov: Spain's general election, a Matryoshka target, per Maldita.es.

[+] 29 Nov: Gagauzia's runoff for governor between Alexandr Stoianoglo and Fiodor Gagauz, per Moldpres.

[+] 1 Dec: Estonia closes its road crossings with Russia for six months, per ERR.

[+] 1 Dec: Extended deadline of the European Commission's consultation on revised election guidelines under the Digital Services Act.

[+] No date: The High Court in Prague on the prosecutor's appeal against Jang I-ming's acquittal, per ČT24.

[+] No date: The Polish Senate's vote on the restrictive measures bill, with information manipulation as a ground for listing, whose Sejm record shows no Senate position yet.

[+] No date: Russia's promised retaliation for Austria's expulsion of four diplomats, per ORF.

[-] Coverage gap: This issue does not draw on Manipulátoři.cz, the European Values Center, NÚKIB's or BIS's own pages, Slovakia's SIS, GLOBSEC's own reports, PAP Fake Hunter, Demagog.org.pl's full list of fact-checks, VIGINUM's own publications, AFP's fact-checks, Mimikama beyond its summaries, or Ukraine's Foreign Intelligence Service. Finding nothing there is not proof that nothing happened.

TTP patterns this week

Russia is the state behind 42 of the 44 records with a state actor this week, attributed or suspected, with one record each for China and Iran, and 31 manipulation records have no known actor. What set the week apart was Poland: the Russian missiles that came down in the east of the country, the Kaliningrad alarm a day later and the charges over the Poznan graffiti made Poland nearly as frequent a target of Russian records as Ukraine. This is the seventh set of records, so the per-week figures can be read as a short trend, but the numbers below are n/N records and several rest on a handful of cases.

[x] Tactic presence by actor: records using each DISARM tactic at least once

TACTIC (KILL-CHAIN ORDER)	RUSSIA (N=42)	UNATTRIBUTED (N=31)	CHINA (N=1)	IRAN (N=1)
TA02 Plan Objectives	34/42	14/31	[x]	[ ]
TA14 Develop Narratives	22/42	15/31	[ ]	[x]
TA06 Develop Content	34/42	29/31	[x]	[x]
TA15 Establish Assets	7/42	3/31	[x]	[ ]
TA16 Establish Legitimacy	28/42	11/31	[x]	[ ]
TA05 Microtarget	9/42	3/31	[x]	[ ]
TA07 Select Channels and Affordances	38/42	31/31	[x]	[x]
TA08 Conduct Pump Priming	6/42	6/31	[ ]	[ ]
TA09 Deliver Content	0/42	3/31	[ ]	[ ]
TA17 Maximise Exposure	7/42	3/31	[ ]	[ ]
TA18 Drive Online Harms	0/42	1/31	[ ]	[ ]
TA10 Drive Offline Activity	2/42	0/31	[ ]	[ ]
TA11 Persist in the Information Environment	6/42	3/31	[x]	[x]

TACTIC (KILL-CHAIN ORDER)	RUSSIA (N=42)	UNATTRIBUTED (N=31)	CHINA (N=1)	IRAN (N=1)
TA12 Assess Effectiveness	0/42	0/31	[x]	[ ]

Not seen this week: TA01 Plan Strategy, TA13 Target Audience Analysis. Planning-phase tactics are rarely visible in open sources, so their absence says more about evidence than behaviour. TA02 includes inferred aims. Counting only aims a source states, Russia is 13/42 and unattributed is 4/31.

[1] **Poland drew nearly as many Russian records as Ukraine.** Poland is a target country in 9/42 Russian records (W47-024, -027, -033, -034, -039, -056, -087, -101, -102), against 10/42 for Ukraine. Dividing neighbours or allies (T0079) is in 9/42 Russian records, six of them aimed at Poland: the Kaliningrad and missile fakes (W47-024, -027), the Poznan graffiti (W47-033), the TikTok accounts Demagog compares with Operation Undercut (W47-034), the CCD's gendered fakes, one of them a deepfake in Poland (W47-056), and the AI image of the Krakow gunman (W47-101).

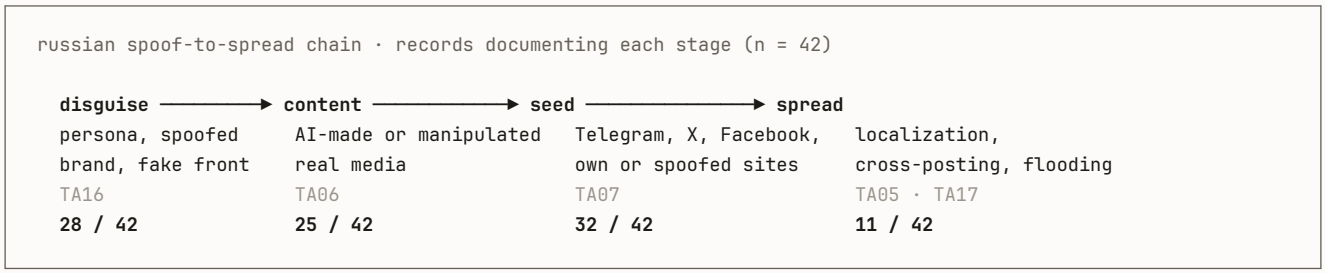
[2] **Breaking news stayed the main peg.** Responding to a breaking event (T0068) is in 15/42 Russian records and 13/31 unattributed ones: the missiles and the Kaliningrad alarm (W47-024, -025, -027), the Kerch bridge (W47-058, -059) and the Shenzhen summit (W47-070) among them. Four of the 15 Russian records (W47-031, -055, -058, -070) rest first on Ukrainian state bodies.

[3] **Borrowed brands stayed with a few operations.** A news-outlet persona (T0097.202) is in 6/42 Russian records, three of them Storm-1516 or Matryoshka fakes (W47-049, -081, -094), and impersonation (T0143.003 or T0149.003) is in 8/42 Russian records against 2/31 unattributed ones. Only Storm-1516 (4 records) and the Pravda network (3) have more than two Russian records this week; 24 of the 42 name no group.

[4] **Telegram carries Russian records, Facebook the unattributed.** Telegram channels (T0151.007) are in 13/42 Russian records against 3/31 unattributed ones, and Facebook and unspecified social networks (T0151.001) in 13/31 unattributed records against 8/42 Russian ones. Part of the gap is likely a selection effect: Telegram channels can be traced to known Russian networks, which is often what makes attribution possible, while anonymous Facebook posts usually cannot.

[5] **AI-made media split evenly, and the Russian AI videos rest mostly on Ukrainian sources.** AI-generated content is in 7/42 Russian records and 7/31 unattributed ones, and in the one Chinese and the one Iranian record. AI video (T0087.001) is in 4/42 Russian records (W47-027, -056, -069, -072), three of which (W47-056, -069, -072) rest first on Ukrainian state bodies.

[6] **Legitimacy held steady.** TA16 Establish Legitimacy is in 28/42 Russian records, after 10/23, 18/31, 20/39, 24/35, 26/36 and 30/47 in the six issues before, so 67% against 64% last week. Officials and outlets speaking as themselves (T0143.001) are in 10/42, among them the foreign ministry's relays (W47-033, -052, -112) and Russian state media (W47-070, -107).



All four stages are documented in 4 records: W47-052 (Russian MFA), W47-070 (Pravda/Portal Kombat), W47-071, W47-094 (Matryoshka/Overload). Stages count techniques, not whole tactics. Disguise is any TA16 label. Content is AI-made or edited media (T0023, T0023.001, T0084.003, T0085.001, T0086.002, T0086.003, T0087.001, T0087.002, T0088.001, T0088.002). Seed is T0151.001, T0151.007, T0151.008 or T0152.004. Spread is any TA17 label or T0101. That is why content and seed can count fewer records than TA06 and TA07.

[-] Read with care: these are seven consecutive issues, and the 26 October and 1 November issues fall in one ISO week, so the per-week rows are issues rather than calendar weeks. 14 of the 82 labelled records rest first on Ukrainian state bodies, which are official sources but a party to the war, and they carry 7.1 labels on average against 6.1 for fact-checks (n=49), 5.9 for media reports (n=7) and 7.8 for government sources (n=4), so label density follows the source. China (W47-005) and Iran (W47-099) rest on one record each, too few for any pattern, and so do the week's only false flag (T0129.010, W47-033) and the two Russian records with paid recruits (T0091.001, W47-033 and -066). Four Russian records are attributed only as suspected (W47-017, -034, -059, -061). Three records are duplicates and count twice: W47-021 of -007, W47-025 of -024 and W47-074 of -030. Two records describe activity mostly older than the week, the BfV's paper (W47-044) and the CCD's study (W47-102), and their labels count this week; the Demagog and IMM review (W47-038) is recorded as a response, as its attributed fakes predate the window. Labels come from secondary reporting, so they show what was documented, not everything the operators did.

[x] What to track as weeks accumulate

[+] Poland as a target of Russian records (9/42 this week) as the missile and Kaliningrad stories age.

[+] News-outlet personas (T0097.202, 6/42) and which operations carry them, after Spain's 29 November election.

[+] The Telegram and Facebook split between Russian and unattributed records (T0151.007 13/42 against 3/31, T0151.001 13/31 against 8/42).

[+] Paid recruits and false flags (T0091.001 2/42, T0129.010 1/42).

[+] Legitimacy in Russian records (TA16, now 28/42 after 30/47), split between open voices (T0143.001, 10/42) and disguise.

Appendix: DISARM techniques used this week

108 techniques, ordered by tactic along the kill chain. Counts are records, not labels. RU = Russia, UNK = unattributed, CN = China, IR = Iran, DOM = domestic (excluded from the analysis). Each ID links to its definition in the DISARM framework, published by the DISARM Foundation under CC BY-SA 4.0.
